

Pressure Cabinet CP1200RP

The ABSS Pressure Blast System offers the ultimate in blasting to provide an accelerated rate of cleaning 3-4 times faster than the Suction Blast

Abrasive is fed to a standard 4.8mm Tungsten Carbide Nozzle from a 20L Pressure vessel fitted below the cabinet hopper.

The principle is low to high pressure blasting using a foot operated on/off pedal. This concept is ideal for production type blasting using a variety of fine to medium and coarse abrasives.

Optional Accessories

Turntable

Track & Trolley

Installed Dimensions

2175mm High x 1770mm Wide x 1110mm Deep

Work Chamber Dimensions

850mm High x 1200mm Wide x 900mm Deep

Door Dimensions

775mm High x 750mm Wide

Power Requirements

240 Volt, 3 Pin 10 Amp Supply

CFM Requirements

30cfm - Using #3 Blast Nozzle @ 60psi
