

# NEW PRODUCT

## HOLD\*BLAST

### Wet abrasive blasting? - Just add it to the water

Use a 1:50 to 1:250 dilution, depending on water quality, contamination and environmental considerations.

### Dry blasting? - Do a quick pressure wash afterwards

With most potable water use a 1:50 dilution-dilute it even further when using quality water.

### Cost considerations? - HOLD\*BLAST is affordable!

“Hold the blast” it costs only cents per square metre.

### Adhesion concerns? Not a problem!

This product does not leave a residue that interferes with coating adhesion.
