

Nozzle Gauges

Part Number - T-21148

Hypodermic Nozzle Gauge

Pocket-sized pressure gauge adapted for use with large hypodermic needles to determine blast cleaning pressure at the nozzle, where it counts.

Instant readings from 0-160 psig.

Blast Nozzle Orifice Gauge

Portable hand-held gauge for measuring the orifice size (inches) to determine air consumption (cfm at 100 psi) of an abrasive blasting nozzle

Part Number - T-30000
