

NOW AVAILABLE Kennametal® Nozzles

Boron Carbide Short Venturi Nozzles

Short Venturi Nozzles offer the widest possible pattern at close range

- Thread style 3/4"
- Steel jacket
- Steel threads
- Length - 54mm

Tungsten Carbide Medium

Medium length nozzles

Most effective on jobs where the nozzles are held close to the surface being blasted.

- Thread style 3/4"
- Steel jacket
- Steel threads
- Excellent for use in spin blasters and pressure cabinets
- Length - 89mm (#3) or 119mm (#4 & #5)

BP200 SiAlON Wide Throat Long Nozzle

High performance wide entry long venturi nozzle designed to replace both silicone carbide and silicon nitride. Resists breakage better than silicone carbide.

- Thread style 50mm
- Lightest weight
- Polyurethane jacket
- Polyurethane threads

This is only a selection of nozzles available
